Portfolio: <https://santhoshkumar-portfolio-eosin.vercel.app/>

Passionate Full Stack Developer with over 1 year of hands-on experience in building ERP solutions and dynamic web applications. Skilled in both frontend and backend technologies including HTML, CSS, JavaScript, Bootstrap, jQuery, Laravel, CodeIgniter, React, Vue.js, and Python.

Focused on developing scalable, high-performance, and user-centric applications with clean code practices, strong problem-solving skills, and a commitment to delivering efficient business solutions.

PROFESSIONAL EXPERIENCE

AHATTRICKZ INFO TECH PVT.LTD

Kumarapalayam, Tamil Nadu

Full Stack Developer

August 2025 – Present

- **ERP & Web Application Development:** Developed and maintained scalable ERP solutions and dynamic web applications using modern technologies such as Laravel, CodeIgniter, React, Vue.js, and Python.
- **Responsive UI Development:** Designed responsive, user-centric interfaces using HTML5, CSS3, Bootstrap, and JavaScript, ensuring seamless cross-device compatibility and improved user experience.
- **Frontend-Backend Integration:** Integrated frontend interfaces with backend systems and APIs, enabling efficient data processing and smooth application workflows.
- **Code Quality & Scalability:** Ensured clean, maintainable, and scalable code practices while following industry standards and best development practices.
- **Testing & Deployment:** Actively contributed to debugging, testing, and deployment processes to enhance application stability, performance, and reliability.

PROJECT

MACAWFIT GYM ERP SYSTEM: <https://erp.macawfit.com/users/login>

- **Full-Stack Development:** Built a scalable Gym ERP system using PHP with the CakePHP framework, along with HTML, CSS, JavaScript, and Bootstrap for UI development, ensuring a structured MVC architecture and seamless integration between frontend and backend.
- **Application Flow & Operations:** Designed and implemented complete system workflows including member registration, subscription management, trainer allocation, attendance tracking, and billing processes to streamline gym operations end-to-end.
- **Access Control & Data Management:** Managed relational databases using MySQL with optimized queries, while implementing role-based access control (Admin, Staff, Trainer) to ensure secure data handling and controlled system access.

EAST MESSAGE WEBSITE : <https://eastmassage.com.au/>

- **WordPress Website Development:** Designed and implemented the East Massage business website using WordPress, customizing themes, optimizing UI/UX with HTML, CSS, and Bootstrap, and ensuring responsive design, performance, and seamless user experience.

UPVC ERP SYSTEM : <https://newlook.ahattrickz.com/>

- **Full-Stack Development:** Developed a UPVC ERP system using PHP with the CodeIgniter 4 framework, along with HTML, CSS, JavaScript, and Bootstrap for responsive UI development, ensuring a clean MVC architecture and smooth integration between frontend and backend components.
- **Application Flow & Operations:** Implemented end-to-end business workflows including customer management, quotation creation, order processing, production tracking, and invoice generation to streamline UPVC operations efficiently.
- **Access Control & Data Management:** Designed and managed relational databases using MySQL, while implementing role-based access control (Admin, Staff) to ensure secure data handling, user-level permissions, and system integrity.
